OFFICERS OF THE COLLEGE.

(*December*, 1906.)

President.—The Rt. Hon. LORD REAY, G.C.S.I., LL.D.

Vice-President.—The Rt. Hon. LORD MONKSWELL.

Treasurer ‡.

COUNCIL.

THE PRESIDENT. THE VICE-PRESIDENT. THE TREASURER.

*Walter Baily, M.A.
*J. Bourne Benson, B.A., LL.D.†
Sir Edward H. Busk, M.A., LL.B.†
Michael Carteighe, F.C.S.
*Professor J. D. Cormack, B.Sc.
The Rt. Hon. Lord Fitzmaurice.
*G. Carey Foster, B.A., LL.D., D.Sc., F.R.S.†
*T. Gregory Foster, B.A., Ph.D.†
*Professor E. A. Gardner, M.A.
Professor R. J. Godlee, M.B., M.S., F.R.C.S.
Professor Vaughan Harley, M.D., M.R.C.P.
Henry Lucas.
*Professor Sidney Martin, M.D., F.R.S.
C. G. Montefiore.
W. E. Mullins.
*Professor J. W. Neill.
Sir John Rotton, M.A., LL.B., K.C.
*Principal Sir Arthur Rücker, LL.D., F.R.S.
Sir Felix Schuster, Bart.
*W. Arthur Sharpe.
*A. Cotterell Tupp, B.A., LL.D.

AUDITORS.

George A. Aitken.
John Hennell, B.A.
Edwin Waterhouse, B.A., F.C.A. (*Professional*).

Provost.—T. GREGORY FOSTER, B.A., Ph.D.†

Lady Superintendent of Women Students. } Miss Rosa Morison.

Secretary.—Walter W. Seton, M.A.

---

* Member of the Committee of Management.
† Fellow of the College.
‡ (Vacant by the death of Sir Richard Farrant.)

SENATE.

(*December*, 1906.)

President.—T. GREGORY FOSTER, B.A., Ph.D.*

Vice-Presidents.—The Rt. Hon. LORD MONKSWELL.†

Sir JOHN ROTTON, M.A., LL.B., K.C.†

	Appointed

Therapeutics	H. BATTY SHAW, M.D., F.R.C.P.*	Lecturer.

* Fellow of the College. † Life Governor of the College.

REPORT OF COUNCIL

To the Members of the College, December 1906.

I. PUPILS AND FEES.

SESSION 1905–1906.

The total number of Pupils during the Session 1905–06 was 1816, being an increase of 62 on that of the preceding Session. Of these 1396 were Students in the College, and 420 Pupils in the School. Of the Students, 242 belonged to the Faculty of Medicine, 77 being new Students: in the Faculties of Arts and Laws and of Science there were 1020 Students, 580 being new Students: 468 Students were registered as "Internal" Students of the University of London: 134 Students were registered as Post-Graduate and Research Students. The largest number of Boys in the School and in the Branch School in any one Term was 454.

In the Faculties of Arts and Laws and of Science these figures show, as compared with the preceding Session, an increase of 61 in the new Students and a total increase of 57; and in the Faculty of Medicine an increase of 7 in the new Students, and a total increase of 1.

The Fees received from College and School (exclusive of those for Clinical Instruction) amounted to £32,879 18*s.* 8*d.*, being £2,632 13*s.* 10*d.* more than in the Session 1904–1905.

The total fees for the two Sessions compared were as follows:—

	1905–1906.			1904–1905.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	3,205	2	6	2,826	1	6
Faculties of Arts and Laws and of Science	19,618	12	1	17,412	5	1
School and Branch School	10,056	4	1	10,008	18	3
	£32,879	18	8	£30,247	4	10

In addition to the above-stated amounts, the sum of £804 16*s.* 6*d.* was received for Clinical Instruction in the Hospital, making a total of £4,009 19*s.* 0*d.* paid by Students of the Faculty of Medicine, being £99 4*s.* 6*d.* more than in the Session 1904–1905.

THE CURRENT SESSION.

The entries of Students to December 1906, have been as follows:—In the Faculty of Advanced Medical Studies, 104, of whom 38 are new Students; in the Faculty of Medical Sciences, 116, of whom 39 are new Students; in the Faculties of Arts and Laws and of Science, 707, of whom 292 are new Students.

The entries in the School, in Michaelmas Term, were 361, of whom 73 were new pupils; adding the 64 Boys in the Branch School at Hampstead, this makes 425 in all.

The College Fees received to December are £686 14*s.* 0*d.* in the Faculty of Advanced Medical Studies, £1832 5*s.* 0*d.* in the Faculty of Medical Sciences, and £10,899 0*s.* 0*d.* in the Faculties of Arts and Laws and of Science.

II. GENERAL FINANCES.

Financial Year 1905–1906.

The Accounts for the year (1905–06) are printed at the end of this Report (see pp. 54–59).

Income and Expenditure.

After writing off the balance of the Chemistry Department Alterations Account, and after providing £346 towards the cost of the new Drainage Works, the excess of Income over Expenditure for the financial year ending August 31st, 1906, was £126 8*s.* 6*d.*

Income.

There has been an increase in the income received from fees of all kinds, except those from the Branch School.

Parliamentary Grant.

The most noteworthy features on the Income side of the College Establishment Account are :—

(*a*) The special Parliamentary Grant of £850 for Apparatus and Books, of which £321 3*s.* was expended in the financial year under a scheme approved by the Treasury.

(*b*) The increase in the College share of the grant to University Colleges, making the amount available for the financial year £10,000.

(*c*) The absence of any debt to the Bankers made it possible to place sums on deposit or out on loan, resulting in interest to the amount of £213 9*s.* 6*d.*

London County Council payments.

The London County Council continued their Grant of £1,500 to the College and made supplementary payments of £1,320 in respect of the fees of additional County Scholars. The Council's payments to the School amounted to £3,100 on account of free places, books, stationery, and examination-fees of County Scholars and of contributions to the salaries of the special staff for the Commercial Department.

Subscriptions and Donations.

Subscriptions and Donations (see Appendix I. p. 33) including the Crabb Robinson Grants amounted to £1140 9*s.* 9*d.*, of which £780 12*s.* 3*d.* was for special purposes and the balance was for general purposes.

Expenditure.

From the Expenditure side of the College Establishment Account, it will be seen that the new scheme of remuneration for Professors referred to in last year's Report has been adopted, so that the majority of Professors now receive fixed stipends together with five twenty-first parts of their fees. A considerable increase was made in the salaries of the assistant staff and additional grants were possible for the purpose of apparatus.

Important additions and alterations were made to the buildings at a cost of upwards of £3000. The additions included the building of a new floor to the Carey Foster Physics Laboratory, in which provision is made for research work, thus setting free space in the other part of the department for the use of senior undergraduate students. Two new rooms were added to the Department of Chemistry. Improvements were carried out in several parts of the College in the form of re-arrangements and redecorations.

General Balance Sheet.

It will be seen from the General Balance Sheet (pp. 58, 59) that the College investments standing in the last account at the value of £4836 6*s.* 3*d* have been sold and the advance (£1242 15*s.* 2*d.*) from the Bacon Fund towards the cost of the School Athletic Ground (The Eve Field) has been repaid to the College by the University. The University has lent the money on the security of the Eve Field and

will receive interest thereon from the School until the amount has been repaid. These transactions were in accordance with the orders of the Transfer Commissioners with the view of completing the financial settlements necessary for the Incorporation of the College in the University.

Liabilities.

It will be seen from the General Balance Sheet on p. 58 that the cash liabilities amount to £5154 1*s.* 10*d.* (viz. Trust Funds £1794 18*s.* 4*d.*; Hospital Dividends, etc. £489 6*s.* 10*d.*; and Sundry Outstanding Accounts £2869 16*s.* 8*d.*). After deducting the cash assets, amounting to £1048 12*s.* 1*d.* (viz. Outstanding Accounts £14 2*s.* 2*d.*; Deposit and Cash in hand £1034 9*s.* 11*d.*), the net cash liabilities at the end of the financial year stand at £4105 9*s.* 9*d.* By order of the Commissioners, £3000 of these liabilities, being in round numbers the liabilities on account of the new drainage scheme, are to be transferred to the University, and the balance of £1105 9*s.* 9*d.* is to be paid as to $\frac{5}{8}$ (£690 18*s.* 9*d.*) by the University, and as to $\frac{3}{8}$ (£414 11*s.* 0*d.*) by the University College Hospital Medical School.

The Current Financial Year.

Further improvements in the College buildings were carried out during the long vacation, the cost of which will amount to about £2000. It is difficult exactly to estimate the results of the working for the current year owing to the lack of complete information with regard to the Treasury Grant.

The Budget for the year has been framed with every regard to economy consistent with efficiency.

III. SCHOLARSHIPS AND OTHER DISTINCTIONS AWARDED IN THE COLLEGE *.

A. *FACULTIES OF ARTS AND LAWS AND OF SCIENCE.*

Slade Fine Art Scholarships (£35 per annum for two years):—
D. G. Maclaren, W. E. Arnold-Forster.
Additional Scholar (£25, one year):—Elinor P. Adams.

Melvill Nettleship Prize for Figure Composition:—G. L. Kennedy.

Slade Fine Art Prize for Composition (£25, div. eq.):—
Elinor P. Adams, E. Morris.

Andrews Entrance Scholarships (£30):—
Classics:—T. J. Cash.
English History and Languages. } Hilda C. Schaeffer.
Mathematics and Science:—C. J. Regan.

Andrews Scholarships for Students of one year's standing (£20):—
Classics:—Mary E. Norris.
Science:—E. Mallett.
Languages:—Euphemia L. Ramsay.

Andrews Scholarships for Students of two years' standing (£20):—
Classics:—Daphne Ryder.

* Names printed in *italics* are those of former pupils of University College School.

Jews' Commemoration Scholarship (£15 per annum for two years) :—A. C. Wood.

Quain Law.—Professor's Prizes of £15, £5 and £3 for Essays on "The Rights of Belligerents and Neutrals as to Submarine Cables, Wireless Telegraphy, and the Intercepting of Information in Time of War."

Prize £15 :—C. Phillipson.
Prize £5 :—M. O'Sullivan.
Extra Prize £3 :—C. L. Nordon.

Donaldson Medals, Architecture :—H. B. T. Morgan, B. M. Goodwin.

Ellen Watson Scholarship in Applied Mathematics (£15) :—W. D. Reynolds.

University College School Research Medal :—*W. B. Tuck.*

Joseph Hume Scholarship in Political Economy (£20) :—L. F. Thompson.

Jessel Studentship, Mathematics (about £50) :—A. R. Richardson.

Ricardo Scholarship in Political Economy (£20 for three years) :—H. D. Vigor.

West Scholarship in English (£30) :—Ethel M. Clothier.

Campbell Clarke Scholarship, about £40 a year, tenable for three years :—A. C. Wood.

Mayer de Rothschild Research Scholarship in Mathematics (£60) :—H. E. Watson.

Tuffnell Scholarship, Chemistry (£80 per annum for two years) :—T. P. Hilditch.

Hollier Scholarships (£60) :—
Greek, *J. Meek.*
Hebrew, B. Liebermann.

Heimann Medal, German :—Elsie Chick.

Morley Medal, English :—F. O. Mann.

Malden Medal and Scholarship (about £20):—Louisa A. Dalladay.

Quain Studentships :—English (£150 per annum) :—J. H. G. Grattan, B.A. ; Biology (£100 per annum) :—Agnes Robertson, D.Sc.

1851 Exhibition Science Scholarship (£150) :—S. E. Sheppard, D.Sc.

Derby Zoological Scholarship (about £120) :—H. B. Fantham, B.Sc.

Chadwick Scholarship in Municipal Engineering (£100) :—N. G. Dunbar.

David Salomons Scholarship in Electrical Engineering (£50) :—R. G. Jakeman.

B. *FACULTY OF MEDICINE.*

Atchison Scholarship (£55 per annum for two years) :—Otto May, M.A.

Atkinson Morley Surgical Scholarship (£45 per annum for three years) :—H. E. Dyson, M.B., B.S.

Fellowes Clinical Medals:—D. C. Taylor, M.B., B.S., John Lewis, J. R. C. Canney.

Filliter Exhibitions (£30 each):—E. M. Cowell, T. S. Higgins.

Erichsen Prize:—D. C. Taylor, M.B., B.S.

Sharpey Physiological Scholarship:—
J. M. Hamill, M.A., M.B., B.C., B.Sc. (from Oct. 1904).

Medical Entrance Exhibitions and Scholarships:—

Bucknill Scholarship, £141 15*s.*:— W. C. Fowler.

Medical Entrance Scholarships, £57 15*s.* each:— A. C. S. Courts. D. I. Jones.

Medical Exhibitions, £84:— T. R. Elliott.

£42 each:— H. R. C. Darling. E. K. Martin.

IV. DEGREES AND EXAMINATIONS FOR DEGREES. UNIVERSITY OF LONDON.

January 1*st to December* 31*st*, 1906.

Examination.	No. passed from University College.	No. from Univ. Coll. in Honours.
Matriculation	48*	
Inter. Arts	35	
Inter. Sci.	54	1†
Inter. Sci., Engineering	10	
Inter. Sci., Economics	8	
Prel. Sci. (M.B.) Pt. I. (*Entire*)	9

VI. DEATHS OF MEMBERS OF THE COLLEGE.

The Council regret to have to record the deaths of the following Members:—

Prof. C. A. Bendall (formerly Professor of Sanskrit) (Life Governor).
F. J. Brakenridge, Esq. (Governor).
Sir Richard Farrant (Treasurer and Governor).
W. Fowler, Esq. (Fellow).
W. C. Venning, Esq. (Life Governor).
Prof. W. F. R. Weldon (formerly Jodrell Professor of Zoology and Comparative Anatomy) (Life Governor).

The death of the Treasurer, Sir Richard Farrant, took place suddenly at his London residence on the morning of Wednesday, November 21st. Sir Richard had presided at the meeting of the Council on Monday, the 19th, and had taken part in the meeting of the Donald Currie Committee on Tuesday, the 20th. The funeral took place on Saturday, November 24th: the College and School were represented by the Provost (Dr. T. Gregory Foster), Dr. Carey Foster, Prof. Neill; the Deans of the Faculties of Arts and Laws, of Science, and of Medical Sciences (Professors Priebsch, Collie, and Thane); the Head Master of the School (Dr. H. J. Spenser), and the Secretary (Mr. Walter W. Seton).

The period during which Sir Richard Farrant held office as Treasurer has been one of great importance in the history of the College. During that period the Fund for Advanced University Education and Research in connection with the College was started and upwards of £272,000 has been subscribed. During the same period, the arrangements for the Incorporation of the College in the University have been completed. In the initiation of both of these movements Sir Richard Farrant took a leading part, and their success was largely due to his continued interest and zeal. He threw himself wholeheartedly into the building schemes for the Medical School and for the Boys' School, and gave to the two Building Committees the advantage of his great practical knowledge and experience. At the time of his death he was planning a new movement for the purpose of raising the balance of the money (about £40,000) necessary to complete the building and equipment of the Boys' School. His loss to the College and to all the institutions connected with it is a severe one. The Council at their Session on Monday, December 10th, adopted the following resolution:—

> "That the Council of University College, London, desire to convey to Lady Farrant and the members of the family their respectful sympathy on the death of Sir Richard Farrant. They desire also to place on record their high appreciation of the loyal and devoted services of Sir Richard to the College since his appointment as Treasurer in the year 1901. At the time of Sir Richard's appointment the College finances were in a critical condition; it was owing largely to his initiative that the Appeal for the Fund for Advanced University Education and Research was instituted, and the success with which it met made the Incorporation of the College in the University a possibility. Sir Richard Farrant's name will always be connected with the

scheme of Incorporation, the policy of which he so actively furthered. In the annals of the College, his name will occupy a prominent place and his memory will be held in the highest regard by those who looked up to him for stimulating and sagacious encouragement, which he never failed to give them, convinced as he was of the righteousness of the cause which he advocated with such deliberate steadfastness."

On receiving the news of the death of Professor Bendall the Council adopted the following resolution :—

"That the Council have heard with deep regret of the death of the late Prof. C. Bendall, who occupied the Chair of Sanskrit at University College, London, from 1884 until 1902. They desire to place on record their appreciation of Prof. Bendall's services to the College, and their sense of the loss which the study of Oriental Languages has sustained through his death, and to convey to Mrs. Bendall and the members of his family their sympathy in their loss."

On receiving the news of the death of Professor Weldon, the Council adopted the following resolution :—

"That the Council have heard with deep regret of the death of the late Prof. Weldon, who occupied the Jodrell Chair of Zoology and Comparative Anatomy at University College, London, from 1890 until his appointment to the Chair of Zoology at Oxford in 1899. They desire to place on record their appreciation of Prof. Weldon's services to the College, and their sense of the loss which Science has sustained through his early death, and to convey to Mrs. Weldon and the members of his family their sympathy in their loss."

VII. RECORD OF THE YEAR.

February 1906—December 1906.

HONOURS AND APPOINTMENTS.

The Council have great satisfaction in recording the following Honours :—

The Rt. Hon. Leonard Courtney, Life Governor and formerly Professor of Political Economy in the College and for some time a Member of Council, has been created Baron Courtney of Penwith.

Baronetcies have been conferred upon Mr. Felix Schuster, Member of Council and Life Governor of the College, and on Mr. Edgar Speyer, Life Governor of the College.

The Honour of Knighthood has been conferred upon Emeritus Professor J. Tweedy, F.R.C.S., and on Dr. R. B. Boyce, M.B., F.R.S., Professor of Pathology in the University of Liverpool, Fellow of the College.

Sir Felix Schuster has been appointed a Member of the Council of the Secretary of State for India.

The Minister of Public Instruction of France has conferred upon Prof. Brandin the title of Officier de l'Instruction Publique.

The Secretary of State for India has appointed Dr. Morris Travers, Fellow of the College and formerly Assistant Professor of Chemistry, to be Director of the Tata Institute of Science in Bangalore.

PROFESSORIAL AND OTHER APPOINTMENTS.

Faculty of Arts and Laws.

1. A new Chair of Tibetan has been constituted, and Lt.-Col. L. A. Waddell has been appointed thereto.

2. Prof. E. J. Rapson has resigned the Chair of Sanskrit on being appointed to the Chair of Sanskrit at Cambridge: Dr. L. D. Barnett has been appointed as his successor.

3. Prof. F. Mackarness has resigned the Chair of Roman Dutch Law on account of his Parliamentary and professional duties: Mr. R. W. Lee of Worcester College, Oxford, has been appointed as his successor.

4. Prof. Brandin has been re-appointed to the Fielden Chair of French.

5. Prof. Brown has been re-appointed to the Slade Chair of Fine Art for a further period of three years.

6. Rev. E. Moore has been re-appointed to the Barlow Lectureship on Dante for a further period of three years.

7. Dr. W. McDougall has been re-appointed Reader in Experimental Psychology for a further period of three years; Prof. Sully has been re-appointed Lecturer in Aesthetics, and Dr. Hirschfeld Lecturer in Semitic Epigraphy for a further period of three years.

8. Dr. Hirschfeld has been appointed to give a Course of Lectures on Ethiopic.

9. Rev. W. Garwood has been appointed Lecturer in Voice Production and Elocution for a period of three years.

10. The title of Assistant Professor of Philosophy has been conferred on Dr. A. Wolf.

11. The following Assistants have been re-appointed for the current Session:—

Architecture	Mr. A. G. James.
	Mr. E. J. Burr.
	Mr. A. Buchanan.
	Mr. R. P. Oglesby.
Egyptology	Mr. J. H. Walker.
French	Mr. W. G. Hartog.
Greek and Latin	Mr. L. Solomon.

12. The Council heard with great regret of the death of Dr. E. S. Shuckburgh, Lecturer in Ancient History; temporary arrangements have been made for the teaching of Ancient History during the current Session by which Mr. M. Caspari takes the Senior and Higher Senior Classes and Mr. Solomon the Junior Classes.

Faculty of Science.

1. Prof. E. A. Minchin has resigned the Jodrell Chair of Zoology aad Comparative Anatomy on being appointed to the new Chair of Protozoology in the University of London: Dr. J. P. Hill of the University of Sydney has been appointed as his successor.

2. Prof. E. H. Starling has been re-appointed to the Jodrell Chair of Physiology for a further period of seven years.

3. The title of Emeritus Professor of Civil Engineering and Surveying has been conferred on Prof. L. F. Vernon-Harcourt.

4. The title of Emeritus Professor of Zoology and Comparative Anatomy has been conferred on Prof. E. Ray Lankester.

5. The title of Assistant Professor of Electrical Engineering has been conferred on Mr. W. C. Clinton; the title of Assistant Professor of Zoology on Dr. G. C. Chubb; and the title of Assistant Professor of Botany on Dr. F. E. Fritsch.

6. Dr. Parsons has been re-appointed Lecturer in Physiological Optics for a further period of three years.

7. Dr. Page May has been re-appointed Lecturer in Physiology of the Nervous System for a further period of three years.

8. Mr. V. H. Blackman has been appointed Lecturer in Plant Cytology for a period of three years.

9. Mr. E. B. Ross has been appointed Assistant to the Professor of Applied Mathematics.

10. Dr. J. K. H. Inglis has resigned his position as Assistant in the Department of Chemistry, and Mr. R. W. Gray has been appointed as his successor.

11. Messrs. Foxell, Gibson, Hilditch, and Watson have been appointed Demonstrators in the Department of Chemistry, and Mr. Dunbar, Demonstrator in the Department of Applied Mathematics.

12. The following Assistants have been re-appointed for the current Session:—

Applied Mathematics	Mr. E. Sprague.
	Mr. M. T. Ormsby.
	Dr. Alice Lee.
Pure Mathematics	Mr. H. J. Harris.
	Mr. J. H. Dibb.
Mechanical Engineering	Mr. E. M. Eden.
	Mr. H. P. Philpot.
	Mr. E. Sprague.
Chemistry	Miss K. Burke.
Geology	Miss E. Goodyear.
Physics	Mr. N. Eumorfopoulos.
	Mr. A. O. Rankine.

FACULTIES OF MEDICAL SCIENCES AND OF ADVANCED MEDICAL STUDIES (see p. 27).

1. Prof. Sir Victor Horsley has resigned his Professorship of Clinical Surgery, and his position as Surgeon to the Hospital. The Council have conferred on him the title of Emeritus Professor of Clinical Surgery and have appointed him Consulting Surgeon to the Hospital. On receiving his resignation, the Council resolved:

> "That the Council having received with great regret Sir Victor Horsley's resignation of his Professorship of Clinical Surgery and his position of Surgeon to University College Hospital whereby his official connection with the College is severed, desire to put on record their recognition of his long service to the College and the distinction he has conferred upon it by his eminence as a scientific investigator."

2. The title of Professor of Clinical Medicine has been conferred upon Prof. J. S. Risien Russell.

3. The title of Professor of Clinical Surgery has been conferred upon Mr. Bilton Pollard.

4. Mr. G. B. Mower White has resigned his position as Demonstrator of Anatomy, and Mr. G. E. Waugh has been appointed his successor.

5. Mr. F. H. M. Parker has been appointed Secretary to the University College Hospital Medical School.

6. Mr. Wilfred Trotter has been appointed Assistant Surgeon to University College Hospital.

REPRESENTATIVES.

1. The Provost (Dr. T. Gregory Foster) and Prof. Cormack were appointed to represent the Council at the Quatercentenary Celebrations of the University of Aberdeen in September.

2. Sir Thomas Barlow was appointed to represent the Council at the Dedication of the new Medical School Buildings of the University of Harvard.

3. Prof. Kenwood and Dr. H. J. Spenser have been appointed the Council's representatives at the Congress on School Hygiene to be held in August 1907.

4. The Provost (Dr. T. Gregory Foster) and Prof. M. J. M. Hill have been re-appointed the Council's representatives on the London Inter-Collegiate Scholarships Board, of which Mr. Alfred E. G. Attoe, Senior Clerk of the College, has been re-appointed Secretary.

5. Dr. F. J. Coutts has been appointed the representative of the Council on the Elston House High School, Leytonstone.

6. Prof. E. A. Gardner has been re-appointed the representative of the Council on the Governing Board of the Sutton (Surrey) County School.

7. Prof. Cormack has been re-appointed the representative of the Council on the Joint Scholarships Board.

8. Sir Felix Schuster has been appointed to succeed the late Sir Richard Farrant on the City Parochial Foundation.

THE COLLEGE AND THE UNIVERSITY OF LONDON.

The Incorporation of the College in the University.

The arrangements for the Incorporation of the College in the University have now been completed. The Commissioners found it necessary, owing to a parliamentary technicality, to postpone the "appointed day" from September 1st, 1906, to January 1st, 1907.

Statutes and Regulations for the management of the College as part of the University of London have been drawn up and approved. They are printed in the current volume of the College Calendar. Statutes and Regulations for the management of the Medical School and of the Boys' School have likewise been drawn up, and have been approved.

By special resolution of the Council approved by the University the changes of style provided for in the Statutes and Regulations were given effect to as from the 1st of September. The style of the College will therefore in future be "University of London: University College," and the title of the chief officer will be "The Provost" instead of

"Principal." The Faculty of Medicine was divided into two, viz., The Faculty of Medical Sciences and The Faculty of Advanced Medical Studies. The former will remain part of the College after Incorporation: the latter will constitute the staff of University College Hospital Medical School.

The College Committee which will take the place of the Council will come into office on January 1st, and will be constituted as follows:—

Dr. Bradford,
*Sir Edward Busk,
Dr. Farmer,
Dr. Mears,
*Lord Reay,
Mr. Russell,
} Members of the University Senate.
Lord Ampthill,
*Mr. Walter Baily,
*Dr. J. Bourne Benson,
*Dr. G. Carey Foster,
Hon. Rupert Guinness,
*Lord Monkswell,
*Mr. W. E. Mullins.
*Sir John Rotton,
*Sir Felix Schuster,
*Mr. W. A. Sharpe,
The Master of the Drapers' Company,
*The Principal,
*The Provost †,
*Professor J. D. Cormack,
*Professor E. A. Gardner,
*Professor J. W. Neill,
Professor E. H. Starling,
Professor F. T. Trouton,
} Nominated by the Professorial Board of University College.

* Members of the present Council.
† Dr. Gregory Foster is a Member of the University Senate.

Concentration of Prelim. Interm. Medical Studies.

The scheme for the concentration of Preliminary and Intermediate Medical Studies at University and King's Colleges has been carried out and is now in active operation.

Inter-Collegiate Lectures.

The scheme of Inter-Collegiate Lectures instituted six years ago by University and Bedford Colleges has been considerably extended by the University, so as to include most of the Schools of the University and most of the departments of the Faculties of Arts and of Science. The inter-collegiate principle has been carried even further in the scheme of inter-collegiate lectures in Laws, instituted at the opening of this Session. By this Scheme all overlapping in Law teaching as between University and King's Colleges and the London School of Economics is avoided. Each teacher is thus enabled to concentrate on his own special branch of teaching. A composition fee of 10 guineas has been instituted, and it is satisfactory to record that the entry of Law students has been larger than for many previous years. An Inter-Collegiate Law Students' Society has been instituted.

The proposed College of Technology at South Kensington.

The scheme for the proposed College of Technology at South Kensington and for the reorganisation of the Royal College of Science and of other South Kensington institutions has not yet been completed. The representations of the University and the College with regard to the importance of the incorporation from the outset of the proposed College of Technology in the University are being considered by the Government. It is hoped that a satisfactory solution of this difficult problem will soon be arrived at, so that the new institution may be an added strength to the University of London.

Inter-Collegiate Scholarships Board.

The work of the Inter-Collegiate Scholarships Board has been continued, the College being represented by the Provost and Prof. M. J. M. Hill. The Worshipful Company of Drapers renewed their grant of £100 to meet the expenses of the Board.

Post-Graduate and Research Students.

The provision of the University Regulations whereby Graduates of other Universities can be admitted as Internal Students to work for the higher degrees of the University of London is likely to increase the large amount of advanced and original work, the output of which has always been a characteristic feature of this College. During the past year there were in all 134 Post-Graduate and Research Students in the College.

Organisation of Oriental Studies.

The College has actively co-operated with the University and with other bodies in urging the need for further organisation and fuller endowment of Oriental Studies. An influential deputation was favourably received by the Prime Minister on Dec. 4th. The College was represented by the President (Lord Reay), the Provost (Dr. Gregory Foster), and Professors Arnold and Neill.

APPEAL FOR FUNDS.

The Appeal Committees have proceeded with their work since the issue of the last Report.

The work of the School Appeal Committee has been seriously hampered by the sudden death of the Chairman, Lord Mansfield. Lord Mansfield has been succeeded by Sir Edwin Durning-Lawrence, an old boy of the School, and an ardent advocate of its claims.

The list of subscribers to the School Building and Equipment Fund is enclosed herewith. The Council wish to record their thanks to the subscribers, and especially to Sir Edwin Durning-Lawrence and to Mr. Joseph N. Drysdale.

At the same time they desire to call attention to the urgent need for providing the funds required to complete the School Buildings.

Benefactors to the School Fund aid both College and School, as the School cannot be removed until the new buildings are completed, and meanwhile the work of the College is hampered for want of space.

The General Appeal Committee has increased the amount of its funds during the year, and is continuing its operations. A Report will shortly be issued on the work of the past year together with audited accounts. A copy will be forwarded to each member of the College as soon as it is ready. The Council desire to place on record their appreciation of the work of the Appeal Committee, and more particularly of those members of it who formed the Executive, of which the late Sir Richard Farrant was the Chairman.

BENEFACTIONS.

The second of the five annual grants of £400 promised by the Worshipful Company of Drapers for "further assisting the statistical work and higher teaching of the Department of Applied Mathematics" has been received, and has enabled the more important work started last year to be continued (p. 26). The Drapers Company.

The Drapers' Company Transit House has been completed and is now in working order. It constitutes a valuable addition to the Equipment of the Department of Applied Mathematics.

The Chadwick Trustees have continued their valuable assistance to the Departments of Hygiene and Municipal Engineering. The Department of Municipal Engineering owes its existence to the benefaction from the Chadwick Trust; it was instituted at a time when the need for the scientific training of Municipal Engineers was scarcely recognised, and it has therefore done pioneer work. The Chadwick Trustees.

The Mocatta Library has been formally transferred to the College. The Jewish Historical Society have handed over the sum of £2,500 as a first instalment to the Fund for the upkeep of the Library, so as to provide additions from time to time, and to form a nucleus for a Museum of Jewish Antiquities. The Mocatta Library.

Mrs. Strong has made a donation of £25 for the completion of certain incomplete sets in the Arthur Strong Memorial Library. Arthur Strong Memorial.

Mr. Carteighe has most generously continued his subscription of £100 towards the endowment of the Chair of Pharmacology. Chair of Pharmacology.

A grant of £138 7*s.* 3*d.* has been made by the Engineering Appeal Committee for additional apparatus in the Departments of Engineering. The Engineering Committee.

The Astronomical Equipment Fund started last year by Professor Karl Pearson reached the total of £266. A further sum of about £200 is needed for the completion of the Equipment (see p. 26). The Astronomical Equipment Fund.

The Crabb Robinson Trustees have renewed the grant of £70 made for several years past for the rent of the Athletic Ground at Acton, and have made special grants amounting to £174 for improvements to the Gymnasium, the Refectory, the Tennis Court, the Racquet Court, and the Students' Common Rooms. The Crabb Robinson Trustees.

Professor G. D. Thane has generously made two donations of £20 each to the Retired Professors' Fund. Retired Professors Fund.

The Carey Foster Memorial Fund Committee formally handed over to the College the portrait of Dr. Carey Foster at the assembly of the Faculties of Arts, of Laws, and of Science. The portrait was painted by Mr. Augustus John, a former student of the Slade School. Carey Foster Memorial.

The Committee have since transferred to the College £143 Canadian Pacific Railway Preference Stock, being the balance of the Carey Foster Memorial Fund. The income is to be devoted to the foundation of a Research Prize in Physics.

Former colleagues and old students of the late Professor Henry Morley (1866–1889) have presented to the College a replica of the portrait of the Professor, painted by his son Robert Morley. Henry Morley Portrait.

The Council desire also to acknowledge the following valuable gifts:—

1. By the Head Master of the School, a Sub-Target Gun, to be known as the "Grant" (after Captain Grant) Sub-Target Gun, for the use of the Cadet Corps.

2. By Mrs. Shaw, a transit instrument for use in connection with the teaching of Astronomy.

3. By Miss Emily Sharpe, a Wedgwood Bas-relief Head of Dr. Priestly, by Flaxman.

4. By Mr. Walmisley, 14 diagrams for the teaching of Surveying and Levelling.

Annual Subscriptions and Donations.

Lists of Annual Subscribers and Donors are given on pp. 33, 34. The Council desire to call attention to the importance of maintaining and extending the list of annual subscriptions. Not only are such subscriptions a means of increasing the revenue of the College, but they serve a most important purpose in all applications to public bodies. The Treasury more particularly attaches great importance, in making its grants, to the amount of local aid that has been given to the College.

THE TREASURY GRANT.

Out of the total grant of £100,000 available for the year 1906–7, the Treasury have assigned to the College £10,000. The Treasury Committee reserved a sum of £11,000 for distribution among the various Universities and Colleges, from which during the financial year 1905–6 the College received the sum of £850 for books and apparatus. The Treasury Committee are now considering the allocation of the balance for the year 1906–7. The College have submitted a memorandum showing to what purposes any grant made to the College may be most usefully devoted, and they have also submitted a scheme for the institution of a system of Retiring Allowances, the Treasury Committee having intimated that they are considering proposals for aiding a scheme for Retiring Allowances. The College has recently been visited on behalf of the Treasury by the Master of Downing College, Cambridge (Dr. Alexander Hill), Sir Thomas Raleigh, and Mr. Hawtrey. They were accompanied on one day of their visit by the Master of the Temple (Dr. Woods). The report recording the results of the visitation will, it is understood, be issued early in 1907.

CO-OPERATION WITH THE LONDON COUNTY COUNCIL.

The arrangement with the London County Council whereby properly qualified students of the London Day Training College take their Degree Courses at the College has now been in operation for four years. Of the students who entered in the second year 11 completed a full three years' course and took their Degrees; of these, 6 graduated B.A., 1 taking Honours, and 5 graduated B.Sc., 4 taking Honours.

The Council have also been glad to co-operate with the London County Council in providing special University Courses for Teachers in English, French, German, and History. Four such Courses were held last Session and were attended by some six hundred Teachers. Ten Courses have been arranged for the current Session.

REARRANGEMENT AND REDISTRIBUTION OF BUILDINGS.

In the course of last Session, the Council received reports from the Senate on the question of the redistribution and rearrangement of the College Buildings that will be desirable when the Donald Currie Building is completed and the Boys' School has been removed to Hampstead. In view of the removal of the Pathological Museum to the Donald Currie Building, the Council have provisionally

adopted a scheme for the utilisation of the great Hall, now occupied by the Museum, for the formation of a series of Departmental Libraries. In their last report the Treasury Commissioners called attention to the scattered accommodation provided for the special Departmental Libraries. The scheme now proposed will remedy that defect and will provide sufficient accommodation for the expansion of the Libraries for some years to come. A rough estimate places the cost of reconstruction between £8,000 and £10,000. Prof. Simpson has been appointed to advise on the reconstruction and rearrangements, and is preparing plans and specifications.

THE WORK OF THE COLLEGE.

It is impossible here to enter into the details of the Work of the College and to do justice to its many Departments. Some of the more important events and developments are dealt with below, and further particulars are recorded in the Deans' Reports, which are printed in the Calendar.

The Session (1905–06) of the Faculties of Arts and Laws and of Science was brought to an end by an Assembly of those Faculties, at which the prizes and medals were distributed by Dr. Carey Foster. An account of the proceedings is printed in the Calendar.

The Session (1906–07) of the Faculty of Medicine was opened with an interesting address by Prof. Godlee on "The Past, Present, and Future of the Medical School."

Postgraduate Courses.

The Council attach very great importance to the provision of Postgraduate Courses and to the original work done by the Teaching Staff and Students of the College. A special prospectus of Postgraduate Courses is now issued and will be found in the Calendar. The lists of original papers and other publications during the year 1905–6 are appended to this Report. (See Appendices II. & III. pp. 35–49.)

Publications.

FACULTY OF ARTS AND LAWS.

The growth in the Departments of this Faculty recorded in the last Report was satisfactorily maintained during the past Session. There has been a slight diminution in the number of students who have entered for the Session 1906–7. The new arrangements with regard to Law teaching, referred to on p. 21, have had an immediate effect, classes having been formed in all the Law Departments of this Faculty.

Indian School and Departments of Oriental Languages.

The grant from the Secretary of State for India for promoting the work of the Indian School has made it possible to provide books and apparatus that were urgently needed, and also to improve the remuneration for the teachers. Fourteen students elected to pass their year of probation at University College last Session. They were all successful in passing the Final Examination, and many of them obtained high places. In Criminal Law the 2nd, 4th, 5th and 6th places were taken by students from the College; in Criminal Procedure, the 3rd, 5th, 6th, and 7th; in Hindustani, the 1st and 3rd; and in Persian, the 1st and 4th. Thirteen candidates for the Indian Civil Service have enrolled themselves at University College for the current Session.

Department of Egyptology.

In connection with the Department of Egyptology, owing to the energy and zeal of Prof. and Mrs. Flinders Petrie, the British School of Archæology in Egypt has been definitely constituted. At the Annual Meeting of that School which was held at the College

under the presidency of Sir Robert Hensley, a most encouraging report was presented, showing that there has been a large increase in the amount of subscriptions, the income of the School for the past year amounting to £1,720. This has made it possible to extend the work, and as reported by Prof. Petrie, "the past season proved one of the richest historical harvests that I have known. The Hyksos camp and cemetery, the city of Raamses, and the temple and town of Onias, have all consolidated our vague impressions and scanty literary statements in a most satisfactory manner."

The continued expansion of the Department makes the need for increased space the more pressing. The Council hope it will not be long before additional room is available for this important Department.

FACULTY OF SCIENCE.

The Department of Applied Mathematics.

The second annual grant of £400 made by the Drapers' Company for the Department of Applied Mathematics has been devoted to (1) Payment of Assistants and Computators, (2) Publications, (3) New Instruments.

Under the first heading Mr. E. B. Ross and Dr. Alice Lee have been working for the Department. The statistics reduced deal with the health of school children, the inheritance of tubercular tendencies, and inheritance in the case of mentally defective children.

Under the second heading two memoirs have been published in the Drapers' Series. The first, by Mr. David Heron, is a study in national deterioration; the second, by Professor Pearson assisted by Mr. J. Blakeman, deals with the problem of migration with application to the problem of mosquito clearances. Two further memoirs, one on the strength of masonry dams and the other on albinism in man (jointly with Mr. E. Nettleship), it is hoped may be shortly issued. A number of memoirs by workers in the department have been issued in the course of the year in *Biometrika*—in many cases aid in the work has been provided directly or indirectly by the Drapers' Grant.

Under the third heading of new instruments, a new equatorial head has been purchased and fitted so that it can be used with the existing smaller reflecting, refracting, and photographic telescopes. Leave to erect a pedestal in the quadrangle has been given, and the astronomical students will thus have the great advantage of mounting and adjusting their instruments every year *ab initio*. The pedestal will carry a sundial when the telescopes are dismounted, and will be covered by a moveable hutch when they are mounted.

This portion of the work of the department has been much helped by the presentation by Mrs. Shaw, at the suggestion of Sir John Rotton, of a small but exceedingly good transit instrument. The annual mounting and adjustment of this will be preliminary to work with the larger instrument in the transit-house, and will be of great value for training in "field astronomy."

The Astronomical Fund was closed on the completion and fitting of the Drapers' Transit House. The total sum subscribed reached £268, thus falling short of the £500 originally asked for. There is a pressing need for a further sum of about £200*; among the most urgent wants being a good chronograph, a good mean-time clock, and further photographic apparatus. There will also be considerable

* At the time of going to Press, an intimation was received that the Court of the Drapers' Company have granted £200 for this purpose.

expenditure on the arrangement of the pedestal for the temporary mounting of telescopes.

The Department has been asked for aid on a variety of subjects in the course of the year, *e. g.* brewery statistics, water analysis, and anthropometric data and inheritance work with regard to insanity and tuberculosis. There are at present some ten research workers or post-graduate students working in or in connection with the department, and a very considerable number of persons who come occasionally for aid as to special points.

The Department of Pure Mathematics.

The growth of this Department has continued so that a third Lecture Room is urgently required to meet its needs.

The Department of Physics.

The alterations and improvements made in the Department of Physics have been fully justified by the increase in the number of students, more especially in the number of research students.

The Department of Chemistry.

In spite of the additional rooms provided, the Department of Chemistry is still overcrowded and the need for an entirely new suite of rooms is very great. The activity of the Department in producing original work is undiminished. The output of the Spectroscopic Laboratory (see p. 43) is specially noteworthy.

The Department of Zoology.

Prof. J. P. Hill was appointed to succeed Prof. Minchin, and entered upon his work this Session. He has brought with him a vast amount of material which needs investigation and which will act as a stimulus to research.

FACULTY OF MEDICINE.

As stated above (p. 21) the Faculty of Medicine has been divided into two Faculties.

Faculty of Medical Sciences.

The Faculty of Medical Sciences comprises the Departments of Physics, Chemistry, Botany, and Zoology (the Preliminary Medical Sciences), also the Departments of Anatomy, Physiology, and Pharmacology (the Intermediate Medical Sciences), and the Departments of Hygiene and Public Health and of Pathological Chemistry (Post-graduate Study).

Full Preliminary and Intermediate Courses of study are provided for Students desirous of obtaining the Medical Degrees of the University of London and as well as for Students seeking the Qualifications of other Universities and Licensing Bodies.

Each of the departments is also equipped for more advanced work, and provides facilities for research.

A student intending to take the Preliminary and Intermediate Courses at University College can enter the College directly, and at the end of these Courses select the Medical School and Hospital at which he intends to complete his Course; or he can select his Medical School and Hospital at the outset, and, by arrangement with the Medical School selected, enter the College for his Preliminary and Intermediate Courses.

The work of the Department of Hygiene and Public Health is post-graduate, and provides the courses and laboratory work necessary for the various diplomas and qualifications in Public Health as well as facilities for research.

The work of the Department of Pathological Chemistry is also postgraduate, and provides for the complete study of chemical processes in relation to disease.

The first Dean of the new Faculty is Prof. G. D. Thane, whom the

Council desire to thank for his valuable work for the Faculty of Medicine, both as Professor of Anatomy and as Sub-Dean for so many years.

Faculty of Advanced Medical Studies.

The Faculty of Advanced Medical Studies ceases on January 1st to be a part of the College and will be known as University College Hospital Medical School. It comprises the Departments of Medicine and Clinical Medicine, Surgery and Clinical Surgery, Midwifery and Gynæcology, Pathology and Morbid Anatomy and Clinical Pathology, Bacteriology, Medical Jurisprudence, Mental Physiology and Mental Diseases, Dental Surgery, Practical Pharmacy, and other Departments for the study of Special Diseases such as those of the Eye, Skin, Ear and Throat, and for instruction in the use of Anæsthetics, and in Electro-Therapeutics and the application of the X-Rays.

The School thus provides the Courses of Study for the Medical Student, desirous of obtaining the Degrees of the University of London or of other Universities, and for the Medical Student seeking the Diploma of the Colleges of Physicians and Surgeons, and the Licence of the Society of Apothecaries.

Each of the Departments is also equipped for more advanced work and provides facilities for research.

The first Dean and Vice-Dean of this Faculty are respectively Prof. Sidney Martin and Dr. Batty Shaw.

New Buildings for the School of Advanced Medical Studies.

The Foundation Stone for the new Building for the University College Hospital Medical School was laid by Sir Donald Currie in the presence of a large company on June 11th. The work of construction has proceeded very rapidly and the buildings are now completely roofed in. The work of removal of the Departments concerned will take place during the long vacation and the new buildings will be ready for use in October.

Clinical Lectures.

Clinical Lectures have been delivered weekly during the Winter Session by Members of the Hospital Staff in rotation and have been well attended. These Lectures will be continued during the Summer Session and will, it is hoped, become a permanent feature of the clinical instruction.

THE LIBRARIES.

The donations to the Libraries, for which the Council desire to express their appreciation, are given in Appendix IV. (p. 50).

The library collected by the late Mr. F. D. Mocatta, and bequeathed by him to the Jewish Historical Society of England, was formally transferred by the Society to the College at a well-attended meeting of friends of Mr. Mocatta, of members of the College and of the Jewish Historical Society, on July 11, 1906, together with an instalment of the fund for its maintenance. The library is of a general character, but it is specially strong in the direction of Jewish history and archæology, and it is this branch in particular which it is proposed to develope. The management of the library is entrusted to a joint Committee, appointed by the College, and by the Jewish Historical Society.

(a) *The Science Library.*

The use made of this, as of the other departmental libraries is steadily increasing. During the Session keys of the Science Library have been issued to 124 students. The British Association presents to the College the publications which it receives in exchange for its Report, and the Geologists' Association, by housing its library at the

College, makes an important addition to the periodicals available. Additional shelving has been provided, so that all the available space has been filled. There is great need for further funds for the upkeep of periodicals.

(b) *The Modern Language Library.*

The University of London has continued its grant to the German section of this library. Keys of the library have been issued to 21 students in the course of the Session 1905–6.

(c) *The General Library.*

The electric-light fittings of the General Library have been overhauled, standard lamps supplied, the wires cased in tubing, and a double-pole switch installed. The question of the more complete protection of the library from the risks of fire is under consideration.

THE MUSEUMS.

The work of reorganising the Geology Museum has steadily continued during the year. Many additions have been made to the collection as well as to the "Bonney" Students Reference Library.

The Museum of Anatomy and Pathology has received valuable gifts during the past year from Professors and from present and past Students. The additions to the specimens comprise surgical, medical, gynæcological, and anatomical specimens. Part III. of the Surgical Catalogue, completing the new edition of the Catalogue, has boen printed and issued.

EVENING LECTURES AND MEETINGS.

The College has been open during the past Session five evenings in the week.

The Lectures delivered by Mr. Stopford Brooke and arranged by the Committee of the Stopford Brooke Lectureship Fund have been attended by about 600 persons.

The Evening Courses in Architecture have been well attended.

Prof. Brandin's Public Lectures were well attended.

The meetings of the Philological Society, the Students' Political Economy Club, the Geologists' Association, the Jewish Historical Society, and the University of London Musical Society are held regularly in the College.

Courses organised by the University of London Extension Board are also held in the College.

Several Educational Societies and Organisations have held meetings. The Council are glad to welcome such Societies.

UNION AND OTHER STUDENT SOCIETIES.

The reports of the Students' Societies show that the corporate life of the College is in a healthy condition.

The Report of the Union Society chronicles an interesting new departure in the institution of Inter-faculty Games, and also refers to the negotiations now approaching completion for the purchase of a new Athletic Ground. The thanks of the College are especially due to Dr. Goodbody for the active share he has taken in the Athletic Ground movement.

Students' Representative Council.

The movement initiated by the College Union for the formation of a Students' Representative Council for the University of London has met with general approval from the Schools of the University. Other organisations, such as a Musical Society and a Union Debating Society, for the whole University have been founded.

Foundation Day was celebrated on Wednesday, June 13th, when the Oration was delivered by the Principal of the University, Sir Arthur Rücker, on "The Forthcoming Incorporation of University College in the University of London."

The U. C. L. Union Magazine was issued three times in the past Session, and contains an interesting record of student activities.

An addition has just been made to the number of students' societies by the institution of the London Inter-Collegiate Law Students' Society.

The special Societies not included in the Union have done excellent work. The Engineering Society organised visits to Glasgow and Germany which were well supported by the members.

Appointments Board.

For the convenience of students desiring appointments on leaving the College, an Appointments Board has been instituted.

THE REFECTORY.

The work of redecorating and re-equipping the Refectory and the Kitchens in connection therewith has been carried on with satisfactory results. The Refectory Committee, under the active Chairmanship of Mr. E. C. C. Baly has succeeded in improving the commissariat.

THE PEEL MEMORIAL FUND.

The income of the Fund was expended in the purchase of books presented to :—

(1) The Mechanics' Institute Library, Richmond, Yorks.
(2) Blairgowrie and Rattray Mechanics Institute and Working Men's Club.
(3) The Working Men's Club and Institute, Halling, Kent.

VIII. UNIVERSITY COLLEGE SCHOOL.

The School has sustained severe losses during the year by the lamented deaths of Lord Mansfield, President of the School Appeal Committee, and of Sir Richard Farrant, Treasurer and Chairman of the School Building Committee.

The Foundation-stone of the new buildings at Frognal was laid on Wednesday, July 25th, by Sir George Barham, Mayor of Hampstead, in the presence of a large and influential gathering of Old Boys and friends of the School. The speakers included Sir George Barham, Lord Reay, G.C.S.I. (President of the Council), Sir Edwin Durning-Lawrence (Old Gower), J. S. Fletcher, Esq., M.P., and Dr. Collingwood Andrews (Old Gower). A prayer was offered by the Right Rev. the Bishop of Islington.

Excellent progress has been made with the buildings, which are now in course of being roofed in. The Appeal for the balance of £40,000 necessary to complete and equip the School is being carried on by the Head-Master, in the absence of Colonel Cox, Assistant Secretary, owing to illness. Sir Edwin Durning-Lawrence has accepted the Presidency of the Appeal Committee in succession to Lord Mansfield.

The following table shows the number of boys in the School in each of the three terms of the last six sessions and in the first term of the current session :—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1899–1900....	309	314	335	319
1900–1901....	351	345	342	346
1901–1902....	368	383	375	375
1902–1903....	399	415	409	408
1903–1904....	383	377	380	380
1904–1905....	378	383	359	373
1905–1906....	384	374	371	376
1906–1907....	362			

The Prizes were distributed on Thursday, July 26th, in the Hampstead Conservatoire by Sir George T. Bartley (Old Gower).

Forty-three boys have passed the Matriculation Examination of the University of London, six boys have passed the Intermediate Examination in Science, seven boys the Intermediate Examination (Economics), and one major Scholarship and one Exhibition have been obtained for Science and Mathematics at Brasenose College, Oxford.

The inspection and examination of the Commercial Side was again undertaken by the University of London, and the Report was exceedingly satisfactory.

A list of the honours of the year is contained in the School Prospectus : the following are the more important :—

Case Exhibition (£20)	*F. A. Morgan.*
Horton Memorial Scholarship	*A. Kramrisch.*
Juliana de Rothschild Prize	*F. A. Morgan.*
Major Scholarship, Brasenose College, Oxford	*O. F. Brown.*

The social and athletic life of the School has given many evidences during the past year of its good organisation and healthy condition. The School concerts and Physical Drill displays have been highly appreciated, and the Cadet Corps under the excellent leadership of Captain Grant has considerably increased its efficiency. The Head Master's generous gift of a sub-Target Gun (see p. 23) will undoubtedly still further increase its efficiency.

The new School Council that will take office on January 1st, 1907, will be composed as follows :—

Member.	*Appointed by*
The Rt. Hon. Lord Reay	University College London (Transfer) Act.*
The Rt. Hon. Lord Monkswell	
W. Baily, Esq.	
Dr. J. Bourne Benson	
Dr. Carey Foster	
Dr. T. Gregory Foster	
Dr. Cotterell Tupp	
Prof. J. M. Hill	University of London.
Sir E. Durning-Lawrence	
W. T. Günther, Esq.	University of Oxford.
H. Weston Eve, Esq.	University of Cambridge.
W. E. Mullins, Esq.	London County Council.
J. T. Taylor, Esq.	
Col. Henry F. Bowles	Middlesex Education Committee.
Dr. E. Collingwood Andrews	Borough of Hampstead.

and two persons to be co-opted by the Council.

* The death of Sir Richard Farrant has created a vacancy which will be filled by the members of the School Corporation.

THE BRANCH SCHOOL.

The present Session began with 64 boys in attendance, a gain of seven on the previous Term.

The curriculum has been re-organised with a view to securing more complete co-operation between the two branches of the School. The chief change consists in postponing the study of Latin until a boy enters the main school. The reasons for this step are fully stated in the current prospectus; it has been approved by a number of leading educational experts. The experiment has already attracted a considerable amount of public attention, and it is hoped that its development will advance the cause of educational reform.

The Prizes for the Session were distributed at the Drill Hall on Tuesday, July 24th, by Sir Samuel Wilks, Bart., M.A., LL.D., F.R.S. (Old Gower), who delivered an interesting address. The Provost in a subsequent speech pointed out that, though the study of classical languages would henceforth form no part of the curriculum, it would still be possible under most favourable conditions to prepare boys for the appreciation of classical mythology, art and literature.

The first census of physical measurements was completed in the Summer Term. The results were in various ways important, but especially in connection with the testing of sight. In several cases of backward development unsuspected defects of eyesight were discovered, and consequently submitted to the treatment of oculists.

IX. UNIVERSITY COLLEGE HOSPITAL.

The Hospital rebuilt by Sir Blundell Maple was formally opened by His Royal Highness The Duke of Connaught, K.G., who was accompanied by the Duchess, on Tuesday, 6th December, 1906; a report of the proceedings has been published and may be obtained from the Secretary.

The Hospital is now in full working order; it contains 279 beds divided as follows:—150 Medical, 118 Surgical, 8 Special Cases and 3 Casualty.

The University College Hospital Ladies' Association, of which Her Majesty The Queen is Patron, now supports two beds, one medical and one surgical.

The Committee much regret to report the death which occurred during the past year of Sir James Peile, K.C.S.I., who during the three years he served on the Hospital Committee proved himself to be an able adviser and rendered the Committee valuable assistance by his co-operation in the management of the Hospital.

The Committee have received with much regret the resignation from the active staff of Sir Victor Horsley, F.R.C.S., F.R.S., who was appointed Assistant Surgeon in 1885 and Surgeon in 1893, and has rendered during that long period most valuable services. Sir Victor Horsley has been appointed Consulting Surgeon.

The following appointments have been made during the past year:—

Mr. H. J. Relph, M.R.C.S., L.D.S.—Assistant Dental Surgeon.

Dr. A. M. H. Gray.—Resident Medical Officer *vice* Dr. Bown resigned.

Mr. Wilfred Trotter, M.S., F.R.C.S.—Assistant Surgeon.

Mr. Bilton Pollard has been appointed to take charge of Sir Victor Horsley's beds.

APPENDIX II.

List of Publications in the Faculty of Arts and Laws as printed in the Calendar, 1906–1907.

Department of Latin. (Professor A. E. Housman.)

Professor A. E. Housman.

(1) On the Silvae of Statius. (*Classical Review*, xx. pp. 37–47.)
(2) On Corp. Inscr. Lat. ii. Suppl. 5389. (*Ibid.* p. 114.)
(3) Bacchylideum. (*Ibid.* p. 115.)
(4) Notes on Phaedrus. (*Ibid.* pp. 257–9.)

Department of Comparative Philology. (Professor J. P. Postgate.)

Professor J. P. Postgate.

(1) On two passages of the *Apocolocyntosis.* (*Classical Review*, xix. p. 303.)
(2) Yews and Suicide. (*Ibid.* p. 358.)
(3) Vendryes, and the Ancients, on *Greek Accents.* (*Ibid.* pp. 363–367.)
(4) Tibulli aliorumque carminum libri tres. (Oxford Press.)
(5) Uncanny Thirteen. (*Classical Review*, xix. p. 437.)
(6) *Repraesentatio Temporum* in the *Oratio Obliqua* of Caesar (continuation). (*Ibid.* pp. 441–446.)
(7) On Plautus *Amphitruo* 302–316. (*Proceedings of the Cambridge Philological Society*, 1905, p. 11.)

Department of Sanskrit. (Professor E. J. Rapson.)

Professor E. J. Rapson.

(1) A hoard of Rajput Coins found in the Garhwal District. (*Journal of the Asiatic Society of Bengal*, 1905, p. 261.)
(2) Notes on Indian Coins and Seals, Part VI. (*Journal of the Royal Asiatic Society*, 1905, p. 783.)
(3) On the Alphabet of the Kharosthī Documents. (*Actes du* XIV. *Congrès International des Orientalistes*, 1905.)
(4) Coins of the Graeco-Indian Sovereigns Agathocleia, Strato I. Soter, and Strato II. Philopator. (*Corolla Numaria.*)

Department of North Semitic Epigraphy. (Dr. H. Hirschfeld.)

Dr. H. Hirschfeld.

(1) Judah Hallevi's Kitāb al Khazari, with an Introduction. (Routledge.)
(2) The Arabic Portion of the Cairo Genizah at Cambridge; 11th to 13th Articles. (*Jewish Quarterly Review.*)
(3) Notes on the Poem ascribed to Al-Samaual. (*Journ. Roy. Asiat. Soc.* July 1906.)

Department of English. (Professor W. P. Ker.)

Professor W. P. Ker.

Essays on Mediæval Literature. (Macmillan, 1905.)

Gerald Gould.

Lyrics. (David Nutt.)

Department of French. (Professor L. M. Brandin.)

Professor L. M. Brandin.

(1) Jose Maria de Heredia. In collaboration with Thomas Seccombe. (*Fortnightly Review*, December, 1905.)
(2) Le plus ancien exemple du français *abriér*. (Romania, 1906.)
(3) Different Reviews.

Delia M. Pope.

(4) The *Roman Comique* in England. (M.A. Dissertation.)

Department of German. (Professor R. Priebsch.)

Professor R. Priebsch.

(1) Description of Old German MSS. in the Advocates', University, and Royal Observatory Libraries of Edinburgh and in the Hunterian Museum of Glasgow, sent to the Archive of the Prussian Academy of Science.
(2) Aus deutschen Handschriften der kgl. Bibliothek zu Brüssel. Pt. IV. Ein niederländisches Liederbuch, I. Teil. (*Zeitschrift f. deutsche Philologie*, Bd. 38, S. 301–334.)
(3) The Author of the French Original of Wolfram von Eschenbach's 'Parzival.' (*The Athenæum*, May 19, p. 608.)
(4) Review of Deutsche Texte d. Mittelalters. Bd. I. & IV. (*Modern Language Review*, No. 1.)

Mrs. J. Crosland.

(5) A German version of the Thief-Legend. (*Modern Language Review*, No. 1, p. 55 etc.)
(6) Zachariä's translation of Milton's 'Paradise Lost.' (In the Press.)

Department of History. (Professors F. C. Montague and A. F. Pollard.)

Professor A. F. Pollard.

(1) Henry VIII. New Edition. (Longmans, 1905.) Reviews of Andrew Lang's *John Knox* and five other works in the *English Historical Review*.

Rachel R. Reid.

(2) The Rebellion of the Earls, 1569 (*Royal Historical Society's* Alexander Prize, 1906.)

Dr. E. S. Shuckburgh.

(3) Greece—in the Story of the Nations Series.
(4) Herodotus IV.—in Pitt Press Series.
(5) Abridged edition of Jebb's *Sophocles Philoctetes.*
(6) Revised edition of W. Arnold's Roman Provincial Administration.
(7) Five articles on Charles Dickens, in the National Home-reading Union Magazine.

Department of Archæology. (Professor E. A. Gardner.)

Professor E. A. Gardner.

(1) A Handbook of Greek Sculpture: New Edition, revised and enlarged; the chief additions also issued separately. (Macmillan, 1905.)
(2) With Rev. E. S. Roberts.
An Introduction to Greek Epigraphy. Part II, the Attic Inscriptions. (Cambridge University Press, 1905.)
(3) The Atalanta of Tegea. (*Journal of Hellenic Studies*, 1906, i.)

Dr. F. W. G. Foat.

(4) Tsade and Sampi. (*Journal of Hellenic Studies*, 1905, ii.)

Department of Egyptology. (Professor Flinders Petrie.)

Professor W. M. Flinders Petrie.

(1) Researches in Sinai. 223 pp., 162 blocks, & 4 maps.

Sir Herbert Thompson, Bart.

(2) Demotic Magical Papyrus. 40 plates, facsimile copy. 2nd Part.

Miss M. A. Murray.

(3) Saqqara Mastabas. Vol. I. 50 pp., 45 plates.
(4) Elementary Egyptain Grammar. 104 pp., 5 tables.

Miss Murray also completely arranged and labelled the Egyptian Section of the Ashmolean Museum, Oxford, during five months of the winter.

Department of Philosophy. (Professors Carveth Read and G. Dawes Hicks.)

Professor Carveth Read.

(1) On Cutaneous Perceptions. (British Psychological Society, Abstract in the *British Journal of Psychology.*)

Professor James Sully.

(2) On Æsthetics: article for new edition of the *Encycl. Brit.* (On eve of publication.)

Mr. A. T. Shearman.

(3) The Development of Symbolic Logic. (Williams & Norgate.)
(4) Notes on Logical Existence, in *Mind*, July 1905 and January 1906.

Professor G. Dawes Hicks.

(5) Sense Presentation and Thought. (*Proceedings of the Aristotelian Society*, 1905–1906.)
(6) Review of Ward's *Naturalism and Agnosticism.* (*Hibbert Journal*, Oct. 1905.)
(7) English Philosophy in the Nineteenth Century. (Revision and extension of article in Ueberweg-Heinze's *Geschichte der Philosophie*, new ed. 1906.)

Department of Experimental Psychology. (Dr. W. McDougall.)

Dr. W. McDougall.

(1) Physiological Factors of the Attention-process. Part IV. (*Mind*, vol. xv. No. 59.)
(2) Critical notices of Wundt's "Physiologische Psychologie" and of Mercier's "Criminal Responsibility" in *Mind*, vol. xv.; and of Sidi's "Multiple Personality" in *Proc. of Soc. for Psychical Research*, Dec. 1905.
(3) A New Method for the Study of Concurrent Mental Operations and of Mental Fatigue. (*British Journal of Psychology*, vol. i. Part iv.)
(4) The Illusion of the Fluttering Heart and the Visual Functions of the Rods of the Retina. (*Ibid.*)
(5) "Psycho-physical Method" in the volume of Lectures on the Method of Science published by *Clarendon Press*, 1906.
(6) Some Neglected Aspects of our Modern Universities. (*University Review.*)

Department of Political Economy. (Professor H. S. Foxwell.)

Mr. G. Udny Yule (Newmarch Lecturer on Statistics).

(1) On the Changes in the Marriage and Birth Rates in England and Wales during the past Half Century; with an Enquiry as to their probable Causes. (*Journ. Roy. Statistical Soc.* March 1906.)
(2) On a Property which holds good for all Groupings of a Normal Distribution of Frequency for Two Variables; with applications to the study of contingency-tables for the inheritance of unmeasured qualities. (*Proc. Roy. Soc.* vol. lxxvii. 1906.)
(3) On the Influence of Bias and of Personal Equation in Statistic of Ill-defined Qualities: an experimental study. (*Proc. Roy. Soc.* vol. lxxvii. 1906.)
(4) With R. H. Hooker. Note on Estimating the Relative Influence of Two Variables on a Third. (*Journ. Roy. Statistical Soc.* March 1906.)

Department of Economic Geography. (Professor L. W. Lyde.)

Professor L. W. Lyde.

The Military Geography of the Balkan Peninsula (in collab. with Colonel Mockler Feryman.) (A. & C. Black.)

Department of Architecture. (Professor F. M. Simpson.)

Professor F. M. Simpson.

A History of Architectural Development. Vol. I. (Longmans, Green & Co.)

APPENDIX III.

List of Original Papers and other Publications from the Scientific Departments of the College as printed in the Calendar 1906–1907.

Department of Pure Mathematics. (Professor M. J. M. Hill.)

Professor M. J. M. Hill.

(1) On the Series for the Sine and Cosine. (*Messenger of Mathematics*, New Series, No. 412, August 1905.)

Dr. L. N. G. Filon.

(2) On the Expansion of Polynomials in Series of Functions. (*Proceedings of the London Mathematical Society*, 1906.)

Department of Applied Mathematics. (Professor Karl Pearson.)

David Heron.

(1) Studies in National Deterioration;—I. On the Relation of Fertility in Man to Social Status and on the Changes in this Relation during the last Fifty Years. (*Drapers' Company Research Memoirs.*)

(2) On the Inheritance of the Sex-Ratio in Man and Horse. (*Biometrika*, vol. v. Part i.)

Winifred Gibson.

(3) Some Considerations concerning the Number of Stars. (*Monthly Notices R. Astron. Society*, vol. lxvi. pp. 445–468.)

(4) Tables for Facilitating the Computation of Probable Errors. (*Biometrika*, vol. iv. pp. 385–393.)

(5) On the Relationship of Spectroscopic Class to Stellar Magnitude. (Nearly ready.)

RAYMOND PEARL.

(6) On the Mean Duration of Life of Individuals dying within a Year after Birth. (*Biometrika*, vol. iv. pp. 510–516.)

(7) Variation in *Chilomonas* under Favourable and Unfavourable Conditions. (*Biometrika*, vol. v. Part i.) (In type.)

(8) A Biometrical Study of Conjugation in *Paramœcium*. (Abstract, *R. S. Proc.* vol. 77 B. pp. 377–383.) The complete memoir will appear in *Biometrika*.

(9) Dr. Pearl has also completed during his period of work in the Drapers' Statistical Laboratory a long memoir on the variation of leaf and whorl in a water-plant, which has been sent for publication to the Carnegie Institute.

(10) Cooperative Investigation on Plants.—III. On Inheritance in the Shirley Poppy. Second Memoir. (*Biometrika*, vol. iv. pp. 394–426). (Karl Pearson, Alice Lee, Mary Beeton, A. Barrington, and others.)

AMY BARRINGTON and KARL PEARSON.

(11) On the Inheritance of Coat Colour in Cattle. Part I. Shorthorn Crosses and Pure Shorthorns. (*Biometrika*, vol. iv. pp. 427–464.)

JOHN BLAKEMAN.

(12) A Test for Linearity of Regression in Frequency Distributions. (*Biometrika*, vol. iv. pp. 332–350.)

Mr. Blakeman has also papers on Projective Geometry and the general theory of Regression Curves ready for press.

W. PALIN ELDERTON.

(13) Notes on Statistical Processes. (*Biometrika*, vol. iv. pp. 374–384.)

KARL PEARSON, A. F. C. POLLARD, and C. WHEEN.

(14) Further Researches on the Stresses in Masonry Dams. (*Drapers' Research Memoirs*, Technical Series V.) (Nearly ready).

Professor KARL PEARSON.

(15) On the Distribution of Severity of Attack in Cases of Smallpox. (*Biometrika*, vol. iv. pp. 505–510.)

(16) On the Relative Brainweights in Men and Women. (*British Medical Journal*, December.)

(17) Report on the Influence of Meteorological Conditions on the Time of Fuses for the Royal Artillery (with Dr. LEE).

(18) On the Curves which are most suitable for describing the Frequency of Random Samples of a Population. (*Biometrika*, vol. v. Part i.)

(19) On certain Points connected with Scale Order in the case of the Correlation of two Characters which for some arrangement give a Linear Regression. (*Biometrika*, vol. v. Part i.)

(20) A Rejoinder to Professor Kapteyn. (*Biometrika*, vol. v.) (In type.)

Prof. KARL PEARSON with the assistance of ALICE LEE.

(21) On the Relation of the Intellectual to the Physical and Moral Characters. (At Press.)

W. R. MACDONELL.

(22) A second Study of the English Skull. The Moorfields Crania. With twelve Plates. (*Biometrika*, vol. v. Part i.)

Department of Physics. (Professor F. T. Trouton.)

Professor F. T. TROUTON.

(1) On the Coefficient of Viscous Traction and its Relation to that of Viscosity. (*Proc. Roy. Soc.* 1906.)

(2) The Vapour Pressure in Equilibrium with Substances holding varying amounts of Moisture [in conjunction with Miss B. POOL]. (*Proc. Roy. Soc.* 1906.)

Assistant-Professor A. W. PORTER.

(3) On the Inversion-Points for a Fluid passing through a Porous Plug, and their use in testing proposed Equations of State. (*Phil. Mag.* April 1906.)

(4) On the Propagation of Waves of Magnetic Induction in Iron; Note on Prof. Lyle's paper. (*Proc. Phys. Soc.* 1906.)

(5) On the Effect of Lagging of Pipes and Wires. (In course of publication.)

A. O. RANKINE.

(6) On the Decay of Torsional Stress in Solutions of Gelatine. (*Phil. Mag.* April 1906.)

C. CUTHBERTSON and E. B. R. PRIDEAUX.

(7) On the Refractive Index of Gaseous Fluorine. (*Roy. Soc. Trans.* 1905.)

Professor TROUTON.

(8) On the Electric Conductivity of the Moisture on Glass Surfaces. (*Physical Society.*)

Departments of Chemistry. (Professors Sir William Ramsay and J. Norman Collie.)

Professor Sir WILLIAM RAMSAY.

(1) A Determination of the Amounts of Neon and Helium in Atmospheric Air. (*Proc. Roy. Soc.* A 76. p. 111.)

O. HAHN.

(2) A New Radioactive Element which evolves Thorium Emanation. (*Ibid.* p. 115.) (Full paper, *Jahrbuch für Electronik*, 1905; also *Journal de Chimie physique de Geneva*, 1905.)

E. H. BÜCHNER.

(3) A substance which delays the discharge of an Electroscope. (Read to *Royal Soc.* in April, 1906; *Chemisch. Weekblad*, 1906.)

Miss Ida Homfray.

(4) Molecular Refractions of some Liquid Mixtures of Constant Boiling-point. (*Trans. Chem. Soc.* Sept. 1905.)

(5) Molecular Refractions of Dimethyl Pyrone and its allies, and the Quadrivalency of Oxygen. (*Trans. Chem. Soc.* 1905.)

Dr. J. K. H. Inglis.

(6) The Isothermal Distillation of Nitrogen and Oxygen and of Oxygen and Argon. (*Phil. Mag.* May 1906.)

(7) The Loss of Nitre in the Chamber Process. Part II. (*Journ. Soc. Chem. Ind.* Feb. 1906.)

Dr. J. K. H. Inglis and J. E. Coates.

(8) The Densities of Liquid Nitrogen and of Liquid Oxygen and of their Mixtures. (*J. Chem. Soc.* June 1906.)

Prof. J. N. Collie and T. P. Hilditch.

(9) On an Isomeric Modification of Dehydracetic Acid. (Ready for publication.)

Dr. S. Smiles and R. Le Rossignol.

(10) Aromatic Sulphonium Bases. (*Trans. Chem. Soc.*)

Dr. S. Smiles and T. P. Hilditch.

(11) Camphor Sulphuric Acid and Camphyl Sulphonium Bases. (Nearly complete.)

Dr. S. Smiles and R. Le Rossignol.

(12) The Action of Sulphur Dioxide and Aluminium Chloride on Phenotic Ethers. (*Proc. Chem. Soc.*)

F. Sproxton.

(13) The Esters of Triacetic Lactone and Triacetic Acid. (Ready for publication.)

A. W. Bain.

(14) The Action of Ethyl and Propyl Iodides on the Sodium Salt of Diacetylacetone. (Ready for publication.)

(15) The Action of Ethylene Dibromide on the Sodium Salt of Triacetic Lactone. (Ready for publication.)

F. N. Fleischmann.

(16) On the Condensation of Triacetic Lactone with Aceto-Acetic Ether. (Ready for publication.)

The following researches are in progress, but not yet complete :—

Prof. J. N. Collie and Miss Ewbank.

(17) On a Condensation Product by the Action of Heat on the Sodium Salt of Aceto-Acetic Ether.

A. W. Bain.

(18) On the Action of Metals on Acid Chlorides.

Zelda Kahan.

(19) On the Action of Chloroformic and Chloracetic Esters with the Sodium Salt of Diacetylacetone.

The following publications have resulted from work in the Spectroscopic Laboratory:—

(1) The Relation between Absorption Spectra and Chemical Constitution. Part I. The Chemical Reactivity of the Carbonyl Group. A. W. Stewart and E. C. C. Baly.

(2) The Relation between Absorption Spectra and Chemical Constitution. Part II. The *a* Diketones and the Quinones. E. C. C. Baly and A. W. Stewart.

(3) The Relation between Absorption Spectra and Chemical Constitution. Part III. The Nitrophenols and the Nitroanilines. E. C. C. Baly, A. W. Stewart, and W. H. Edwards.

(4) The Relation between Absorption Spectra and Chemical Constitution. Part IV. The Substituted Quinones. A. W. Stewart and E. C. C. Baly.

(All the above in *Trans. Chem. Soc. Lond.*)

(5) Beziehungen zwischen Ultravioletten Absorptionsspectren und physikalisch-chemischen Vorgängen. E. C. C. Baly and C. H. Desch. (*Zeit. f. Phys. Chemie*, lv. 4. p. 485.)

(6) The Relation of Ultra-Violet Absorption Spectra to Physical-Chemical Processes. E. C. C. Baly and C. H. Desch. (*Astrophys. Journ.*)

(7) The Relation between Absorption Spectra and Chemical Constitution. Part V. The Isonitroso Compounds. E. C. C. Baly, Effie G. Marsden, and A. W. Stewart.

(8) The Relation between Absorption Spectra and Chemical Constitution. Part VI. The Phenylhydrazones of the simple Aldehydes and Ketones. E. C. C. Baly and W. B. Tuck. (In June No. *Trans. Chem. Soc.*)

(9) The Reactivity of the Carbonyl Group as measured by Absorption Spectra. A. W. Stewart and E. C. C. Baly.

(10) The Origin of Colour. E. C. C. Baly and A. W. Stewart. (The last two papers in course of publication by the *Astrophys. Journal.*)

The following investigation is finished and nearly ready for publication:—

(11) The Absorption Spectra of Certain Pyridine Compounds. E. C. C. Baly and F. Baker.

Department of Botany. (Professor F. W. Oliver.)

Miss Agnes Robertson.

(1) Cytology and Classification. (*New Phytologist*, vol. iv. p. 134.)

(2) Recent Work on the Reduction Division in Plants. (*New Phytologist*, vol. v. p. 9.)

(3) On the Morphology of *Phyllocladus*. (*Annals of Botany*, vol. xx. pt. 3.)

Professor F. W. Oliver and Miss Agnes Robertson.

(4) Catalogue of the Collection of Sections of Fossil Plants in the Botanical Department. 2nd ed., 1905.

Mr. A. G. Tansley and Miss R. B. Lulham.

(5) A Study of the Vascular System of *Matonia pectinata*. (*Annals of Botany*, vol. xix. p. 475.)

Mr. A. G. Tansley (and F. F. Blackman).

(6) Ecology in its Physiological and Phytographical Aspects. (*New Phytologist*, vol. iv. pp. 199 & 232.)

Miss E. N. Thomas.

(7) Some Points in the Anatomy of *Acrostichum aureum*. (*New Phytologist*, vol. iv. p. 175.)

Mr. W. C. Worsdell.

(8) The Structure and Origin of the Cycadaceæ. (*Annals of Botany*, vol. xx. p. 129.)

Dr. F. E. Fritsch.

(9) Section *Algæ* in "The Flora of the Royal Gardens, Kew."

Department of Zoology. (Professor E. A. Minchin.)

Professor E. A. Minchin.

(1) The Characters and Synonymy of British Species of Sponges of the Genus *Leucosolenia*. (*Proc. Zool. Soc.* 1904, ii., April 1905, pp. 349–396, text-figs. 91–98.)

(2) On the Sponge *Leucosolenia contorta* Bowerbank, *Ascandra contorta* Hæckel, and *Ascetta spinosa* Lendenfeld. (*Proc. Zool. Soc.* 1905, ii., October 1905, pp. 3–20, pl. i., and text-figs. 2–6.)

(3) Report on the Anatomy of the Tsetse-fly (*Glossina palpalis*). (*Proc. Roy. Soc.* B 76, 1905, pp. 531–547, 7 text-figs.)

(4) Article Protozoa, in: Allbut and Rolleston, System of Medicine. [Revised Edition.] (In the Press.)

(With A. C. H. Gray, and F. M. G. Tullock.)

(5) Report on the Relation of the Tsetse-fly (*Glossina palpalis*) to the Trypanosome of Sleeping Sickness and to other Trypanosomes. (With Three Plates.) (In preparation for publication in Proc. Roy. Soc.)

Professor E. A. Minchin and H. B. Fantham (Derby Scholar).

(6) *Rhinosporidium kinealyi*, n. g., n. sp., a New Sporozoon from the Mucous Membrane of the Septum nasi of Man. (*Quart. Journ. Micros. Sci.* 49, 1905, pp. 521–532, pls. 30, 31.)

Dr. Gilbert C. Chubb.

(7) The Growth of the Oöcyte in *Antedon*; a Morphological Study in Cell-Metabolism. (*Phil. Trans.* 1906, pp. 1–59, 3 pls. Abstract in *Proc. Roy. Soc.* vol. 77, p. 384.)

H. B. Fantham, Derby Scholar.

(8) *Piroplasma muris*, n. sp., from the Blood of the White Rat, with Remarks on the Genus *Piroplasma*. (*Quart. Journ. Micr. Sci.* 50, 23 pp., 1 pl. Also Note in *Proc. Zool. Soc.* 1905, ii. p. 491.)

H. M. Woodcock.

(9) Notes on Sporozoa. I. On *Klossiella muris*, gen. et. spec nov. Smith and Johnson, 1902. (*Quart. Journ. Micr. Sci.* 48, p. 153, 2 figs.)

(10) Protozoa, in *Zool. Record*, Vol. 41.

(11) The Life-cycle of *Cystobia irregularis* (Minch.), together with Observations on other "Neogamous" Gregarines. (*Quart. Journ. Micr. Sci.* 50, p. 1, with 6 plates.)

(12) The Hæmoflagellates; a Review of Present Knowledge relating to the Trypanosomes and allied Forms. (*Quart. Journ. Micr. Sci.* 50, p. 151, with 65 figures.)

W. N. F. Woodland.

(13) On the Adult and Embryonic Anatomy of *Centrophorus calceus*, (To be published shortly.)

(14) Sponges, in *Zool. Record*, Vol. 41.

E. T. Browne.

(15) A Report on the Medusæ found in the Firth of Clyde (1901–1902). (*Proc. Roy. Soc. Edinb.* vol. xxv. 1905.)

(16) Notes on the Pelagic Fauna of the Firth of Clyde (1901–1902). (*Proc. Roy. Soc. Edinb.* vol. xxv.)

(17) Report on Medusæ from Ceylon in Herdman's *Reports on the Pearl Oyster Fisheries*. (*Royal Soc. London*, 1905.)

(18) On the Freshwater Medusa *Limnocnida tanganicæ* and its Occurrence in the River Niger. (*Ann. Mag. Nat. Hist.* (7) vol. xvii. 1906.)

Margaret Robinson.

(19) On the Development of *Nebalia*. (To be published shortly in the *Quart. Journ. Micr. Sci.*)

Department of Geology and Physical Geography.

(Professor E. J. Garwood.)

Professor E. J. Garwood.

(1) Origin of Alpine Lakes, Hanging-Valleys, &c. (*Geograph. Teacher*, no. 3, 1905, pp. 62–70.)

(2) The Tarns of the Canton Ticino. (*Quart. Journ. Geol. Soc.* vol. lxii., pp. 165–195. 8 pls. 6 coloured maps.)

Department of Mechanical Engineering. (Professor J. D. Cormack.)

Professor J. D. Cormack.

(1) "The Theory of Machines." An Address to the Graduates of the Institute of Civil Engineers. (Published by the Institution.)

(2) "Some Notes on Boiler Trials" The Honorary Members' Lecture to the Junior Institution of Engineers, 25th Session. (*Journ. Jun. Inst. Eng.* 1906.)

Mr. E. H. Sprague.

(3) Construction in Metal. (*Architects' Library*: Longmans, Green, & Co.)

F. J. Kean.

(4) A Review of the Belleville Boiler Question. (*Trans. Inst. Marine Eng.* 1906.)

E. G. Izod.

(5) Behaviour of Materials of Construction under Pure Shear. (*Proc. Inst. Mech. Eng.* 1906.)

L. F. de Peyrecave and F. J. White.

(6) Gas Engine Indicators. (*Journ. Inst. Jun. Eng.* 1906.)

Department of Electrical Engineering. (Professor J. A. Fleming.)

Professor J. A. Fleming.

(1) The Principles of Electric Wave-Telegraphy. (1 vol. large oct. 670 pp. Longmans & Co.)

(2) Articles for the Encyclopædia Britannica. 11th Edition. Amperemeter, Conduction (Electric), Electrical Machine, Electricity (History and Theory of), Electrokinetics, Electromagnetism, Electrometer, Electrophones, Electroscope, Electrostatics, Galvanometer, Induction Coil, Leyden Jar, Lighting (Electric), Meter (Electric), Ohmmeter, Oscillograph, Potentiometer, Telegraphy (Wireless), Transformers, Voltmeter, Wattmeter, Wheatstone's Bridge.

(3) A Note on the Theory of Directive Antennæ or Unsymmetrical Hertzian Oscillators. (*Proc. Roy. Soc.* Paper read March 22nd, 1906.)

Assistant-Professor W. C. Clinton.

(4) Electric Wiring. (2nd Edition: Murray & Co.)

G. B. Dyke.

(5) On the Use of the Cymometer for the Determination of Resonance-Curves. (*Proc. Phys. Soc. London*, vol. xx.; also *Phil. Mag.*, May 1906).

Department of Physiology. (Professor E. H. Starling.)

Professor E. H. Starling and E. E. Henderson.

(1) The Factors which determine the Production of Intraocular Fluid. (*Proc. Roy. Soc.* vol. lxxvii. 1906.)

Professor E. H. Starling and Janet E. Lane-Claypon.

(2) An Experimental Enquiry into the Factors which determine the Growth and Activity of the Mammary Glands. (*Proc. Roy. Soc.* vol. lxxvii. 1906.)

Drs. R. H. Aders Plimmer and W. M. Bayliss.

(3) The Separation of Phosphorus from Caseinogen by the Action of Enzymes and Alkali. (*Journ. of Physiol.* vol. xxxiii. 1906.)

Dr. R. H. Aders Plimmer.

(4) On the Alleged Adaptation of the Pancreas to Lactose. (*Journ. of Physiol.* vol. xxxiv. 1906.)

Dr. J. M. Hamill.

(5) On the Identity of Trypsinogen and Enterokinase respectively in Vertebrates. (*Journ. of Physiol.* vol. xxxiii. 1906.)

(6) On the Mechanism of Protection of Intestinal Worms and its Bearing on the Relation of Enterokinase to Trypsin. (*Journ. of Physiol.* vol. xxxiii. 1906.)

E. E. Henderson.

(7) The Factors of the Ureter Pressure. (*Journ. of Physiol.* vol. xxxiii. 1905.)

F. A. Bainbridge and H. H. Dale.

(8) The Contractile Mechanism of the Gall-Bladder and its Extrinsic Nervous Control. (*Journ. of Physiol.* vol. xxxiii. 1905.)

Janet E. Lane-Claypon.

(9) The Origin and Life-history of the Interstitial Cells of the Ovary in the Rabbit. (*Proc. Roy. Soc.* vol. lxxvii. 1905.)

F. H. Scott.

(10) On the Relation of Nerve-cells to Fatigue of their Nerve-fibres. (*Journ. of Physiol.* vol. xxxiv. 1906.)

Dr. S. B. Schryver.

(11) Studies in the Chemical Dynamics of Animal Nutrition. (*Biochemical Journal*, vol. i. 1906.)

Dr. W. M. Bayliss.

(12) On some Aspects of Adsorption Phenomena, with Especial Reference to the Action of Electrolytes and to the Ash Constituents of Proteins. (*Biochemical Journal*, vol. i. 1906.)

Dr. W. Page May.

(13) A Contribution to the Study of Secondary Descending Degeneration in the Posterior Columns of the Spinal Cord. (*Review of Neurology and Psychiatry*, Jan. 1905.)

Drs. J. M. Hamill and S. B. Schryver.

(14) Nitrogenous Metabolism in Normal Individuals. (*Proc. Physiol. Soc.* March 1906.)

Dr. R. H. Aders Plimmer.

(15) The Presence of Lactase in the Intestine of Animals. (*Journ. of Physiol.* 1906.)

Dr. S. B. Schryver.

(16) Lectures on the Chemistry of the Albumens. (London: Murray, 1905.)

Professor E. H. Starling.

(17) Mercers' Company Lectures on Recent Advances in the Physiology of Digestion. (London: Constable & Co., 1906.)

Dr. W. Page May.

(18) Microgyria, with Resultant Changes in the Central Nervous System.

Department of Public Health. (Professor H. Kenwood.)

Professor H. Kenwood.

(1) Tinned and Canned Foods. (*Journal of the Royal Sanitary Institute*, vol. xxvi.)
(2) Observations upon the Practical Standardisation of Disinfectants. (*Journal of the Royal Sanitary Institute*, vol. xxvii.)
(3) The Practical Standardisation of Disinfectants. (*Public Health*, vol. xviii.)
(4) Disinfection. (*Public Health*, vol. xviii.)

Dr. Coolawalla.

(5) Subject: "The Changes which take place when small Quantities of Sewage are added to a potable Water and the Time required for these Changes."

W. H. Peile.

(6) The Disinfection of Sewage Effluents.

Department of Pharmacology. (Professor A. R. Cushny.)

Professor CUSHNY.

(1) On the Action of Calycanthine. (*Archives internationales de Pharmacodynamique*, xv.)
(2) Treatment of Sleeplessness and Pain. (*Brit. Med. Journ.*, 1905, ii.)
(3) Textbook of Pharmacology and Therapeutics. 4th edition. (Lea, Bros., Philadelphia.)

Dr. C. W. EDMUNDS and Prof. CUSHNY.

(4) Laboratory Guide in Experimental Pharmacology. (Waler.)

Prof. CUSHNY and Dr. EDMUNDS.

(5) Paroxysmal Irregularity of the Heart and Auricular Fibrillation. (In the Press.)

Department of Pathology. (Professor Sidney Martin, M.D.)

Professor SIDNEY MARTIN.

(1) The Chemical Products of the Bacillus Enteritidis Sporogenes. (*Report of Medical Officer of Local Government Board.*)

Dr. H. BATTY SHAW.

(2) On Autointoxication. Goulstonian Lectures delivered before the Royal College of Physicians.

Dr. CHARLES BOLTON.

(3) A further communication on the Specificity and Action in Vitro of Gastrotoxin. (*Proc. Royal Society.*)
(4) On the Physiological Action of an Arrow Poison from Nigeria. (*Proc. Royal Society.*)

Drs. C. BOLTON and S. H. BOWN.

(5) On the Action of Diphtheria Toxin on the Central Nervous System. (*British Medical Journal.*)

H. MUIR EVANS.

(6) Note on the Treatment of Weaver Sting. (*British Medical Journal*).
